

WARNEMÜNDER WOCHE

Press release 11th of July, 2012

Opti-Team-Race in the Alter Strom is finished

SEB II is the first ship home after the race around Bornholm

In four days, the Dyas have finished seven races in the waters of Warnemünde. Jens Leicher (59) from Koblenz and Frank Bender (41) from Cologne were all the time on the first position. They managed very well with the existing wind conditions. The team has already been six times at the WARNEMÜNDER WOCHE and will participate in the German Championship in Kröslin. "Dyas are very common in our region and we enjoy the relaxed atmosphere within this boat class" state the winners.

The team of the Rostocker Yachtclub is winning the Opti-Team-Race

The youngest generation of sailors started again in the Alter Strom and were intensely watched by their older companions. In order to be easier to distinguish by the visitors the kids were dressed in different colors. Every team started with four crew members and all in all there were eight boats that needed to compete on the narrow channel. "The black team had already won the race mentally so that the green team could position themselves first" said Uwe Ochmann, one of the sailing-coaches of the city of Rostock. "But then they changed their mindset and seriously fought for the victory. That is what that sport is about." ... namely that it is not the individual winning that counts but the winning of the whole team as such. In a situation of equal points the team wins that did not make the first place. Therefore, in case of doubt it is better to become jointly second in order to win in the end. On the second position behind the Rostocker Yachtclub is the Rostocker Segelverein Citybootshafen. The third is the Warnemünder Segel Club followed by the "Team Hessen".
